Superior
Why not choose the “Superior Range”? The superior range comes with eight high intensity, low voltage LED external lights (2 on each wall of the unit) to light a large area around the full circumference of your site. Each bank of 2 lights can be switched on independently so you can light up either the north, south, east or west of your location, or the full circumference if you so choose. The Superior range also comes with a high powered, low voltage, electric hand drier in the toilet.

SSP - Site Starter Pack
To save you the time & aggravation in organising all the small things that go into a fully operational Welfare Unit initially set up the hard work for you. With our SSP we will receive the following:

Options
• Finished in your corporate colours
• High Visibility Chevron Sign Writing

Upgrades

Specifications & Equipment
Since our formation in 1987 Electro-Services has risen rapidly to the forefront, supplying the utilities and construction markets with servicing, sales and hire of specialised equipment. Since foundation the Electro-Services name has become synonymous with quality and reliability. We are committed to ‘never ending improvement’ and ensure that our personnel are familiar with the latest techniques and procedures required to satisfy all our customers. We continually upgrade our skills to meet the industry’s need for excellence. We continually upgrade our skills to meet the industry’s need for excellence.

We have extensive experience of supplying and servicing the needs of the whole industry, from the sole trader to multi-national businesses.

With hubs located in Luton, Thurrock, Birmingham, Leeds & Wigan we have a nationwide infrastructure that allows us to supply you nationwide service from a local dedicated depot instantly.

Electro-Services Ltd only manufacture the latest Welfare Units to the highest specification. All of our units are highly efficient, economical to run, save energy, fuel & money and thus are extremely environmentally friendly “Eco” spec from conception.

There are very few upgrades available within the ranges, as we load all of our units with top specifications, build quality & gadgets from the outset.

The revolutionary ESEco range of Welfare Units provides all the facilities required by law, and more. The ESEco7 range provides them in the most environmentally & economically efficient way reducing noise levels with the “SSS” Super Silent Sound Proofed Generators, CO₂ emissions, electricity costs & overall lifetime maintenance costs.

The HSE state that it is the legal duty of every employer and every self-employed person to ensure that the provisions of the regulations are complied with in respect of any person at work on a construction site for example:

• Providing suitable and sufficient sanitary conveniences shall be provided at readily accessible places (WCs)
• Washing facilities with hot and cold water
• To provide drinking water including boiling water
• Suitable facilities for drying and changing clothing
• A rest room/area complete with facilities to prepare and eat meals.

The word focus might be only small, but the meaning is huge when it comes to safety.

Specification & Equipment

7 MAN 14’ UNIT

Compact & portable, it can be set up within 3 minutes of arrival at site. The integral hydraulic rams & axle allow for easy transportation & installation. The unit will save you large sums of money on transportation whilst also greatly reducing the associated carbon footprint as it can be delivered using a small van, not a heavy goods vehicle.
